

# YourOutDoors LLC drives customers to independent retail nurseries

**Y**ourOutDoors LLC is a different kind of tool company; one that focuses on lifestyle, innovation and creativity. The manufacturer of The Perfect Garden Tool System, YourOutDoors LLC, has created the first garden tool system designed specifically for the way today's decorative gardeners garden. It's also changing the way tool companies work with independent retail nurseries.

The Perfect Garden Tool System is a revolutionary tool that makes gardening easy and pain-free. With 85% of all gardeners being women, it shouldn't take brawn to wield a gardening tool. That's why The Perfect Garden Tool System was created for gardeners of every age, gender, and skill level. With its patented ergonomic design, the tool system prevents blisters, eases strain on the heart and is less stressful on gardeners' backs than traditional gardening tools. It's both slip proof and weatherproof and cleans up easily. The tool attachments go right in the dishwasher!

The secret to The Perfect Gardening Tool System is in its handles: the Power Handle, T-Handle, Youth Handle, and Pole Handle. Each is designed to maximize power while minimizing discomfort. Attach any of the 15 top quality tool heads and there's virtually nothing you can't do in and around your garden. Attachments include: the Power Planter, Garden Spade, Patio Broom, Claw Cultivator, Stirrup Weeder and, with the ergonomic handle, each is designed to make gardening easier from a standing or kneeling position.

As one of the only tool manufacturers that deals directly and exclusively with independent retail nurseries, YourOutDoors LLC offers 50% + margins and has eliminated M.A.P. markdowns. Easy new customer terms, a minimum reorder program and overnight shipping means reduced inventory and cash management hassles. This innovative tool system and the company behind it also boast the only lifetime in-store "No Nonsense" replacement warranty in the tool industry. No questions asked.

To further drive customers and generate sales, YourOutDoors LLC will advertise your store and The Perfect Garden Tool System on your local horticulture radio shows. The manufacturer will also provide in-store promotions and demo clinics by qualified gardening professionals. And with the purchase of your Perfect Garden Tool System inventory, YourOutDoors LLC will send you a beautifully merchandised, rolling display rack.

YourOutDoors LLC is also committed to your local community. By implementing garden club donation programs and youth in gardening programs at local nurseries, YourOutDoors LLC will promote gardening and those who love it. Additionally, the manufacturer will donate 5% gross revenue to the World Cranial Foundation.
