# "The Perfect Garden Tool" Revolution is Now!

Gardeners – It's time to throw down your old tools and say goodbye to straining your back. Don't sweat the past, just get outside and enjoy the sun, for your return to gardening is at hand! Literally.

It comes in the form of a ground-breaking, industry-shifting product designed to make the rewards of gardening a painless experience.

The Perfect Garden Tool System makes it all possible. It is the most innovative, durable, efficient, ergonomically correct and cost effective tool on the market, and is changing the face of the garden tool industry.

The Revolution is on and here's why:

The Perfect Garden Tool was meticulously researched and designed by inventor Ray Miller who sought to develop a tool that is, among other things, comfortable to use, functional, aesthetically pleasing and won't strain your wallet.

The amazing thing is, with the Power Handle, and the unique Perfect Tool attachment System, the tool replaces 17 different standard garden tools and features attachments like the Power Planter, the Garden Trowel and Garden Spade, a Three-Prong Aerator, Bow Rake, Four-Tine Cultivator and Two-Headed Hoe... incredibly all dishwasher safe.

For Ray Miller, it wasn't about making more money. Already an accomplished businessman, it was more personal. The idea for a revolutionary garden tool came to Miller while working in his own garden. He quickly became

fed up with using a slew of tools that required he continuously stoop, bend and kneel.

"The basic design of shovels and rakes hasn't changed in six thousand years, but gardeners have," said Miller. "The tools currently manufactured weren't designed for me. In order to get back in the yard, I wanted something more efficient, easier to use, quicker and faster."

The Perfect Garden Tool accomplishes all of that and more, and comes with a 100 percent lifetime replacement guarantee. Miller explains, "We didn't make our product to break. We made them to become heirlooms." The cleverly designed product is primarily making poorly manufactured, traditional tools a thing of the past.

Retailers will love the self-contained, easy-to-set-up, eye-popping display that fits compactly into a 3-foot by 3-foot area. It is highly attractive, a true piece of brilliance unto itself.

Just as impressive is the fact that Miller's Your Out Doors, manufacturer of The Perfect Garden Tool System, donates a portion of sales to the World Craniofacial Foundation, Non-Profit Garden Clubs and Youth and Gardening Programs, believing that, cultivating the beauty of nature in our world changes lives.
